

CHÉRIE PEREIRA

cherie.pereira1908@gmail.com | [LinkedIn](#)

Private equity-trained former founder, MBA from LBS; lived across three continents & speaks four languages. Looking for a role at the intersection of finance, strategy & operations at an organisation shaping how AI is built and used.

Financial modelling · Due diligence · Fundraising · Stakeholder management · Go-to-market (GTM) strategy · Agentic workflows

PROFESSIONAL EXPERIENCE

Dope & Mine – Co-founder

London, UK

Direct-to-consumer fashion startup addressing sensory comfort

September 2023 – June 2026

- Defined and validated go-to-market strategy through structured consumer research, proving product-led positioning over identity-led by 5:1; sized a £450M UK gap and 43% of the target segment opted in pre-launch
- Created an algorithm to scaffold the creative design process and ensure customer pain points from primary research were met, weighting each pain point by prevalence and severity and scoring every design against the weighted set before it went forward
- Pivoted the product offer to a larger addressable market on evidence that size adjustability would address most customer requirements; confirmed the feasibility of AI-driven size-adjustable garment construction at scale using Claude Code

Codeskin – Finance & Strategy Lead

London, UK / Bombay, India

Family-owned skincare brand with in-house formulation and manufacturing

August 2021 – August 2023

- Shelved the sustainable skincare sub-brand ahead of launch investment; modelled unit economics on pricing research and supplier quotes, finding no viable margin in India's price-sensitive skincare market
- Set the pricing strategy for the core range, building the unit-level P&L and a five-brand comparable set to recommend a price range that kept contribution above 40% per unit and the brand within reach of the mass-premium shelf

Carpediem Capital – Private Equity Analyst

Bombay, India

Consumer-focused growth equity firm, working alongside founders of portfolio companies

November 2017 – April 2019

- Designed the post-investment strategy a \$7M growth-equity consumer deal closed on: from diligence findings, moved revenue off marketplace concentration into owned and offline channels, cutting returns and lifting margin; sales up 25% quarter on quarter
- Supported the fundraising for the £110M second fund: wrote the private placement memorandum filed with regulators and built positioning documents used to secure investment from family offices, sovereign wealth funds, and LPs in India and globally
- Modelled the exit of a portfolio medical devices company live through negotiations with a large private equity platform acquirer, re-pricing each proposal for founders and fund between sessions and guiding founders and the fund's partners through every term
- Formulated the sales strategy that grew annual sales 60% at the portfolio medical devices company, led by a portal where corporate clients let gift recipients choose their own equipment; 8 new accounts took corporate sales from 20% to 48% of revenue

Kotak Mahindra Asset Management – Equity Research Analyst

Bombay, India

Long-only value investing fund within India's seventh-largest asset manager (£12B AUM)

August 2016 – August 2017

- Advocated for a hold recommendation on a paper stock the £430M fund was set to sell, on a cost advantage the market had missed, which delivered a further 70% returns; retail and pharma recommendations returned 175% and 85% to the portfolio
- Cut Investment Committee reporting preparation by 2 days a month with a template that classified holdings and built the exhibits

Perlin Group – Investment Manager

Bombay, India

Family office created following L'Oréal's acquisition of the family skincare business

June 2015 – August 2016

- Supported Cheryl's Cosmeceuticals' acquisition through creation of financial projections and offering memo, negotiations and deal structuring; set up investment process for the new office

EDUCATION

London Business School – MBA

London, UK

Master of Business Administration (Strategy & Change Management)

2019 – 2021

- Secured interviews at KKR, Bain Capital, Carlyle and Inflexion by pitching a self-driven deep dive into an Italian clean beauty company (13% annual growth, 8 points ahead of market); built the investment thesis, financial model and post-investment strategy
- GMAT: 750 (98th percentile)

Boston University – BSBA

Boston, USA

Bachelor of Science in Business Administration (Finance & Law)

2011 – 2015

Université Paris Dauphine – Semester Exchange

Paris, France

Marketing & finance courses taken in French, and internship at French company

2014
